

## **Talga expands north Sweden operation with new manager and office in Kiruna**

Australian advanced materials technology company Talga Resources Ltd (“Talga”)(ASX:TLG) is pleased to announce the opening of its second office in northern Sweden and the appointment of a Community Relations Manager.

The new office located in the city of Kiruna, is strategically positioned near Talga’s flagship graphite project Vittangi, and will support the Company’s progress towards a vertically integrated supply chain that includes Lithium-ion battery anodes, among other advanced material products.

Further, Talga has appointed Dharma Johansson, former Business Development Manager (Sustainability and Destination Strategy) of local investment and tourism organisation Kiruna Lapland, as its Community Relations Manager for Talga Graphene AB. Her past roles include community-related positions with the Swedish Public Employment Service and the Swedish Migration Agency.

Dharma will be responsible for actively engaging with stakeholders and community, ensuring all perspectives are captured towards maximising local social and economic benefits from Talga’s project.

**Community Relations Manager, Dharma Johansson:** *“We are seeing more companies look to sustainable exploration and production solutions for extraction of innovation-critical minerals in northern Sweden. For me, it feels like the Talga opportunity is an important assignment and I very much look forward to deepening dialogues with all groups involved.”*

**Talga Graphene AB General Manager, Anna Utsi:** *“We are incredibly pleased to welcome Dharma. Her profound knowledge of sustainability and development issues along with a solid understanding of the region will play a key role in Talga’s continued success.”*
