Mark Thompson to present "Graphene: The Path to High Performance Eco-Friendly Materials"

May 12, 2017 – Talga Resources Ltd. (ASX: TLG), unearthing tomorrow, is pleased to announce that they will be presenting at **InvestorIntel's 6th Annual Cleantech & Technology Metals Summit** (CTMS2017.com | @CTMS2017). Featuring some of the most impressive market movers in the cleantech and technology metals sector, #CTMS2017 is scheduled for Monday, May 15th and Tuesday, May 16th at the Omni King Edward Hotel in Toronto, Canada located at 37 King St. East.

Mark Thompson, Managing Director of Talga Resources Ltd. is scheduled to speak on Tuesday, May 16th from 10:00 – 10:15 AM (EST). Presenting **Graphene: The Path to High Performance Eco-Friendly Materials**. Graphene is not a wonder material of the future, but a wonder material of the present. As an additive, graphene makes bulk products stronger, lighter or more functional, thus increasing performance and lowering environmental impact. Talga is a vertically integrated company that aims to become the world's largest and most cost-effective provider of graphene and graphite raw and value-added materials.
